

Hampshire Care Association

Outstanding Innovation & Best Practice

Finalists

Jo Jackson – St Ronans

Jo is always there, she is our mentor, and safety net. She is always behind us, and working on the floor constantly observing working hard on the safety of work, she knows all staff members and residents and this is the way a trainer should work.

John Caslake – Summerwood

John has twice led the service to receive an 'Outstanding' rating for CQC. This year John doubled the previous 2 domains to 4! This achievement doesn't happen overnight and it doesn't happen once, let alone 3 years later without constantly evolving the service with continual improvement. Johns relationships with the people he supports, his staff and the wider community helps put Summerwood at the heart of their local community and all the wonderful outcomes that this achieves. John is truly an outstanding manager

Maria Parsley- Caring Hands

I feel Maria is deserving of this award because she goes far above and beyond in her role. Maria is part of many local projects, including HCA/HDCP, Pact Workforce Development and various other local pilot projects, even with the current situation of COVID
